## INTRODUCTION

---

In olden times ritual casters and clergy would argue as to who would lead rites. The Ecclesiastical Body won that argument, when in the Vale it was found that you could open a Rites Circle, and the deities within the boundaries of the camp could hear the voices of their followers and direct them to bestow gifts and blessings.

Rites are not an exact science, instead they are performances done to invoke power from the deities, either directly by working with them (religious rites), or indirectly by working with magic (magical rites). All rites, whether religious or magical, are watched by the deities in the faction's camp.

**This document lists all the rites currently in the game.**

### RITES CIRCLE

Within the boundaries of the faction's camp there is an area which is designated to perform rites within.

To perform a rite, you must be in the presence of a member of the Game Team authorised to Ref the performance.

---

# THE VALE LRP

## CHARACTER CREATION DOCUMENT

---

All Rites should be written on a receptacle, whether that be a prayer book, spell book, pre-prepared parchments, or tattooed to the body of a minion. In the description of the rite it will note the number of rite cards used.

All rites, whether religious or magical, are watched by the deities in the faction's camp.

Rites can only be performed in your faction's rite circle. You cannot perform rites in an opposing camps rite circle... your deities are not present!

### RITE CARDS

Each time is bought, you will gain four rite cards. These are a non-replaceable, un-tradeable resource for the rite caster, which are refreshed at every event. They do not carry over between events. Some rites will require that these cards are handed to another player to be used. i.e. as resistance to a spell. These should be marked with the appropriate spell or skill granted from the Rite.

### TO CAST A RITE

- Attract a member of the Game Team to Ref the performance
- Brief them of the Rite you are attempting to perform
- Pass over the required number of Rite Cards for the specific rite
- Perform the Rite
- Draw a bead: get result

All rites have a chance of failure. Within a bag will be a mixture of red, white, and black beads:

- Red beads drawn will add power to the end effect
- A white bead drawn will end the drawing of beads and move on to the effect
- A black bead drawn will end the drawing of beads and move on to the effect
- White beads bear good results
- Black beads bear bad results
- Red beads are necessary for more powerful effects.

You do not have the right to see what beads were in the bag.

Things to consider when performing a rite:

- Breaking concentration/being interrupted/attacked/spells cast at you will add either add blacks, add reds, or remove whites, or a mixture of all three.
- Once a rite has started it must be completed. If it starts to go wrong, try to pull it back under control.
- There are no set times for the length of a performance.

### RITE COSTS

Costs for rites are listed in the details of the rite. They may be paid by anyone that has rite cards, and is participating in the rite.

Rites only have the cost of the cards used, but sometimes that will not be enough to cast the rite successfully. To improve the chances of success you may add additional components or power:

- Items crafted by alchemists or mage crafters to add additional power to rites.

---

# THE VALE LRP

## CHARACTER CREATION DOCUMENT

---

- Specific items crafted, required by the rite.

Example: The Lightning Rite of Deathly Vulnerability creates a Bane Weapon. This requires an active crafted component of a Bane Rune.

Rites that effect objects or creatures in a negative way are contested. It may be wise to over-power these types of rites than go by the minimum costs listed in the rites.

### CREATING RITES

It is possible for new rites to be created. Once a rite has been created it will be added to this rites document under the relevant heading and be available to all players for purchase. New rites are approved by deities, and as such are available in both factions once created.

### CONCURRENT MAGICAL EFFECTS

You cannot have more magical effects running on you than you have Event Soul Shards. Magical effects in this way include:

- ❖ Spells with a duration longer than 30s
- ❖ Rites; where you are the beneficiary
- ❖ Rituals; where you are the beneficiary
- ❖ Artifacts & Relics bound to you
- ❖ Magical servants (familiars, summoned creatures, etc)

Rites, Rituals, Artifact+ items, and mage familiars may use permanent soul shards, reducing the overall number of concurrent magical effects permanently. Further if those soul shards are lost at an event, it may make the associated effect in-active.

### RELIGIOUS RITES

---

Each Deity has a primary, secondary, and tertiary aspect. When purchasing religious rites, you may purchase them in any order. Unlike magical rites, they have a fixed development point cost based on their caster's abilities.

#### INITIAL RELIGIOUS RITES

These rites are gained at character creation for being an Ecclesiastic Character.

#### ENTWINE FATE (PATRON) (1, PERMANENT)

Outside of the Vale you can only learn theory, but inside the deities become entities which can have very real effects on the world. Until you have entwined your fate with one of these entities you will not be able to approach the Eternal Reign where they reside.

Once performed successfully this is no longer used. There is a more powerful non-limited version of this rite that is available for purchase.

This is designed as a starter rite for all Ecclesiastic Characters to get them into the groove of performing rites within the Factions Boundaries.

#### OPEN RITE CIRCLE (4, VAR)

This rite attempts to beseech the Divine entities with the boundaries of the camp to open a circle which allows further performances to be made.

Any character that has at least one rite may participate in the performance if they wish to contribute to the cost.

Whilst the Circle should remain open for the entire event sometimes actions may break it.

#### BIND ITEM (1/ITEM BEING BOUND, VAR)

This will attempt to bind an item to a character. This rite cannot be used to bind an item of Artifact/Relic to a character, a different rite must be used.

If any item is taken via the Search skill, this will break the binding of the item.

If any item is unbound when a character dies, they lose that item and it should be handed in to the Games Desk in the case of final death, or your Camp Ref in the case of Rebirth.

#### BLESS WATER (1/PHIAL, UNTIL DAWN)

Will bless water that is held in small potion bottles. This water is required in various other religious rites and has other effects in the game. Please do not throw this at other players. You cannot tap it off blessed water into other containers, and one phial is one use.

---

## CHARACTER CREATION DOCUMENT

---

### PERFORM MARRIAGE (1/PERSON, UNTIL DEATH)

This joins characters in marriage in the eyes of the deities within the faction's boundaries. Each participant must take part in the performance and be anointed with blessed water.

### ACCESS BARRIER (2, 10M)

Should any member of an opposing faction wish to pass through the barrier then first the deities of the camp must be appeased. Upon successful completion of this rite, blessed water can anoint the target and allow them to force through the barrier. This takes 10s and once they have started, they must pass through before turning around. Once in they may leave at any time.

**If for any reason access is gained without this rite, characters of the opposing faction have no rights to leave the camps barrier.**

### SPECIFIC RELIGIOUS RITES

These are available only via the requisite skill purchase in the Ecclesiastic Skill Tree.

### INVOKE REIGN (1, VAR)

Will change the allegiance of your factions Eternal Reign to match your pantheon.

### DENY REIGN (4, 1H)

Deny the change of allegiance of your factions Eternal Reign to opposing pantheons.

### ENTWINE FATE (4 | 8 SELF OR TARGET, PERMANENT)

This will Entwine the Fate of either the caster or a target with a patron. This can overwrite an existing connection; but can have tragic consequences to all involved if not done very carefully! To perform this rite successfully a soul shard should be paid to the caster on behalf of the patron involved. Where that payment comes from is irrelevant.

**Entwining Fate does not use up a concurrent magical effect.**

### CREATE RITE (VAR, INSTANT)

You attempt to create a brand-new rite. When a rite is created you must assign it to either:

- Religious in one of the three aspects that your patron has access to
- Magic Universal
- Magic (sphere)

Incorrect assignation will cause a failure in the attempt to create the rite. Knowledge of different Spheres of magical is advantageous in the creation of rites.

Once the rite is created it will be permanently added to all lists and available in both factions.

### DEITY SPECIFIC RITES

Each deity has specific rites they can use, divided into primary, secondary, and tertiary. The performance of rites scales in difficulty driven by the relevance of the rite to the deity. Thus, tertiary rites are harder than secondary, which are harder than primary rites to perform.

### *AVERT THE DAMAGE (12, USED/DAWN)*

Effects: Grants one character three DODGE calls. Three of the rite cards must be marked with the caster mark and the word DODGE. A character may only benefit from this rite once per day.

### WAR BASIC

Available to Initiates

### *BLESSED WEAPON OF WAR (4/STEP, DAWN)*

Effects: Improves the quality of a single weapon at a cost of the quality they are going to: From Mundane -> Superior -> Masterwork -> Magical -> Artifact -> Relic. Each step costs 4 rite cards. ### *JUGGERNAUT (15, REBIRTH/DAWN)*

Effects: converts a character's hits to Global with a modifier of x1.5 (rounded up), with half of those hits (rounded down) as Natural Armour. Global hits are calculated on what the character was wearing at the time of the rite, and armour cannot be removed whilst under this effect. Cannot be an Ascension Form or have Natural Armour from any other source to be subject to this rite.

i.e. a character with Toughness 2, has 3 hits/location, wearing medium armour 2 armour / location has a total of  $5 \times 1.5$  becomes 8 Global hits, whereas a character with Toughness 2, 3 hits/loc and plate armour 4/loc has a total of  $7 \times 1.5$  becomes 11 hits.

Whilst under the effect they will only take a wound after 11 body hits or are subject to a FATAL effect. Head hits are ignored.

### CRAFT BASIC

A crafting rite will only affect a single character once per day. Available to Initiates

#### *CELEBRATION OF THE BRUSH (2, USED/DAWN)*

Effect: Grants a single crafter +1 Crafting Points. The Rite Card should be marked with the effect and handed to the crafter. Unused points are lost at dawn.

#### *CELEBRATION OF ART (6, USED/DAWN)*

#### *CELEBRATION OF INVENTION (12, USED/DAWN)*

### CRAFT ADVANCED

Available to clerics

#### *FESTIVAL OF ENLIGHTENMENT (36, USED/DAWN)*

Effect: Grants up to 10 crafters in the rites circle +5 Crafting Points. The Rite Card should be marked with the effect and handed to the crafter. Unused points are lost at dawn.

### FORBIDDEN MAGIC BASIC

There are always deities that touch on things that should be left well alone. It is no surprise that they offer rites that will get their followers in to more trouble than they can handle. Most effects of Forbidden Magic are dangerous, you have been warned. Available to Initiates

#### *STONE OF RETURN (1, USED/DAWN)*

Effect: Creates a stone tuned to an individual character which allows them to return to their camp via an open portal. The Rite Card should be marked as such with the effect and handed to the individual.

---

# THE VALE LRP

## CHARACTER CREATION DOCUMENT

---

### *PROTECTION OF MAGIC (6, USED/DAWN)*

Effects: The target of the rite gains a single casting of the spell: Chant of Protection. They do not require magic items, nor knowledge of the spell to cast it, and are only required to use the specially prepared Rites Card in the casting of the spell. They must use the spell in accordance to the spell description.

### FORBIDDEN MAGIC ADVANCED

Available to clerics

### *SEAL PORTAL (VAR, INSTANT)*

Effect: Attempts to seal a hostile open portal. The number of rite cards must be judged as you are directly going against the caster of the portal spell and is worked out in part by their costs in opening the portal. This can be performed directly after the Rite of Scrying to view a close but otherwise out of line of sight portal.

### *TRANSVERSE THE VOID (20/CHARACTER, 1 HOUR OR LESS)*

Effects: The rite caster attempts to take a small group of characters (up to 9) and themselves across the void to somewhere else. If successful this will create a portal at the end location back to the Rite's Circle, sucking the character's selected through.

They will only be able to return if they have the portal open. The rite caster cannot do anything else except hold the portal open. If they are wounded and finish their death count, the portal immediately closes, sucking the caster back through, and any other character from the initial group that are in touch range of the caster.

Holding a Stone of Return will allow you to use it at any time whilst you are in Line of Sight of the Portal, by holding it in the air and shouting STONE OF RETURN. You are immediately removed from play.

Whilst a portal is being held from a remote location the Rite's Circle is unavailable in that faction's camp, unless a Seal Portal Rite is cast upon it. This is a vastly hostile act and could have wide ranging consequences for any participants of such a rite.

### *TOUCH THE VOID (10, USED/DAWN)*

Effects: The rite's caster attempts to grasp some understanding of the Void. This has the chance to reward them with a beneficial effect, or highly detrimental effect. Beneficial effects generally are single shot spell uses that do not require items. Detrimental effects range from being wounded to losing soul shards. Not for the faint hearted!

## MAGIC RITES

---

Each Sphere of magic has access to their own sets of rites drawn from the ancient power that it represents. These rights may be learnt by anyone that has access to magic but have a Development

---

# THE VALE LRP

## CHARACTER CREATION DOCUMENT

---

Cost associated with them between 1-6. Unlike Religious rites, magical rites are generally less powerful.

Magic Rites are available once you have achieved Sage in a type of magic. You may only select Rites from your Sphere.

Magic Rites are laid out as such:

- Rite – Rite Name (Sphere, Type, Rite Cost, Duration)
- Effect

### UNIVERSAL RITES

These are available to any savant or sage that purchases the rites.

#### CREATE SERVANT (UNIVERSAL, MENTAL, 20, PERMANENT)

This rite attempts to create an extension of the caster's will beyond the physical. It appears in the form of a creature that has a close and personal relationship with the caster. All creatures created in this way start as homunculus and can be reformed as something else should the caster Ascend.

A homunculus will replace the Caster's Spell book and cannot be stolen from them. It can though be dismissed. When dismissed it is simply banished from the realm until the caster resummons it. Any spells that have not been committed will be unusable until the creature is summoned.

The creation of a servant requires the loss of 4 permanent rites cards, a sacrifice of the caster's own ability in its creation. Other rites that improve the servant will also require sacrifice.

The starting Dismiss Value of a homunculus will equal the number times you have bought the Sage skill at the time of creation, plus any additions from crafted items.

When performing this rite, you are required to have the appropriate crafted runes for the servant to gain power.

A physical representation of the creature must always be used and kept on your character. The is subject to the approval of the Game Team.

**Note: Creating a servant uses a permanent concurrent magical effect.**

#### ENTWINE FATE (UNIVERSAL, SPIRITUAL, 6 SELF, PERMANENT)

This will bind Entwine the Fate of either the caster with a patron. This can overwrite an existing connection; but can have tragic consequences to all involved if not done very carefully! To perform this rite successfully a soul shard should be paid to the patron. Where that payment comes from is irrelevant.

#### IMBUE KNOWLEDGE (UNIVERSAL, MENTAL, 4, PERMANENT)

Grants your servant additional knowledge base on the crafted runes you imbue into it. This rite is to allow your servant to gain new knowledge, and abilities, just like can be gained from the imbue ment of a book.

---

# THE VALE LRP

## CHARACTER CREATION DOCUMENT

---

**Note: Installing knowledge into your servant, which itself is an extension of the caster may use a permanent concurrent magical effect.**

LOCATE (UNIVERSAL, SPIRITUAL, 2, 30M)

You must have a wooden bowl with a floating pointing within it. This will point in the direction of the object wished to be found. This can be used straight after a Sense Rite to find a sense object or spell. This will only work within the boundaries of the faction's camp.

SENSE (UNIVERSAL, SPIRITUAL, 1, 5M)

Attempts to sense a hidden / obscured object or spell within the boundaries of the faction's camp.

STRENGTHEN SERVANT (UNIVERSAL, MENTAL, 20, PERMANENT)

Improves the Dismiss Value of your servant by 5 at the permanent cost of 4 Rite cards each time it is successfully cast. Please visit GOD with the appropriate approval from your Camp Ref to allow this to be updated onto your Characters Record. The cost of this is taken in the creation of the servant.

SUMMON SERVANT (UNIVERSAL, MENTAL, 4, INSTANT)

Will allow the summoning of a servant that has been dismissed. Creation of a servant is a separate rite. Servants that can be summoned in this way are: familiars, fetches, elementaling, and homunculus. Without this rite a servant will reappear given enough time (dawn).

SPHERE RITES

Available to those with the requisite Sphere of magic.

CLEANSING (FIRE, PHYSICAL, VAR, INSTANT)

Attempts to tear off magical effects on a creature. The cost in rite cards is contested against the power of the effects it is trying to remove.

COLD ROOM (BODY, PHYSICAL, 20, CONCENTRATION)

This rite turns the area of the rite circle into a place of no-magic while the caster maintains it. No magic at all will work inside a cold room, be it from a ritual, rite, spell, or item. Artifacts and Relics may be immune to this effect.

DEATHLY VULNERABILITY (LIGHTNING, PHYSICAL, 20, USED/EVENT)

Attempts to create a weapon with the BANE enchantment, which can be used for a single execution only. This requires components created by crafters. These components are consumed in the attempt to perform this rite, whatever the outcome is.

FEED THE OVERLORD (SPIRIT, PHYSICAL, 10+, INSTANT)

**Requirements: Entwined Fate (any)**

With this rite you murder a member of your faction, destroying their soul shards and killing them utterly. Any goods, items, and soul shards they own are sent to your patron. The subject of this spell cannot be willing and must be of your own faction. (This rite may cause some hostility in camp).

This rite is contested by the power of the individual that is being sacrificed.

---

# THE VALE LRP

## CHARACTER CREATION DOCUMENT

---

**Note: This rite is a double-edged sword. Used correctly it can garner much favour with a patron, used in-correctly it can harm any current favour.**

IMBUE WITH FIRE (FIRE, PHYSICAL, 2/WEAPON, USED/DAWN)

**Requirements: Fire Weapon**

Imbues one weapon per two rites cards spent in fire. Part of the Rite is to inscribe effect on each rite card, with the casters mark. These are used by the owners of the weapons to make them magical for 30s as per the spell.

Only one Imbue rite may be present on a weapon. When using the rite card to cast the spell, the verbals are IMBUE MY WEAPON WITH FIRE, which must be said at a volume that could be heard from 10' away.

IMBUE WITH ICE (ICE, PHYSICAL, 2/WEAPON, USED/DAWN)

**Requirements: Ice Weapon**

Imbues one weapon per two rites cards spent in ice. Part of the Rite is to inscribe effect on each rite card, with the casters mark. These are used by the owners of the weapons to make them magical for 30s as per the spell.

Only one Imbue rite may be present on a weapon. When using the rite card to cast the spell, the verbals are IMBUE MY WEAPON WITH ICE, which must be said at a volume that could be heard from 10' away.

IMBUE WITH LIGHTNING (LIGHTNING, PHYSICAL, 2/WEAPON, USED/DAWN)

**Requirements: Lightning Weapon**

Imbues one weapon per two rites cards spent in Lightning. Part of the Rite is to inscribe effect on each rite card, with the casters mark. These are used by the owners of the weapons to make them magical for 30s as per the spell.

Only one Imbue rite may be present on a weapon. When using the rite card to cast the spell, the verbals are IMBUE MY WEAPON WITH LIGHTNING, which must be said at a volume that could be heard from 10' away.

OPEN PORTAL (BODY, PHYSICAL, 100, CONCENTRATION)

The caster, most likely with a lot of help, attempts to open a temporary portal to a place in the world outside the Vale. If successful, this will allow others to pass through the portal to that place.

Portals made in this way are two-way and are only maintained whilst the caster concentrates on it. If the primary caster breaks concentration, then the portal will begin to destabilise. If the caster is wounded and finish their death count, the portal will close.

Whilst periods of long concentration are possible, generally longer than 2 hours will cause the caster to become fatigued, with potentially fatal consequences to those that will be trapped if the portal closes.

The cost in rites cards is calculated in the duration you wish to hold the item or creature times by the power of the item or creature held.

A creature held in stasis is effectively paralysed until released.

The potential durations are 30s, 2m, 5m, 1h, Dawn, Event

i.e. A Sage (Fire) would have a rank of 3 x the five minutes to create an antidote to the poison that is affecting him would be 9 rite cards. A creature or item that has no magic will always be given a rank of 1.

With this rite it is impossible to scry on an area protected in some way; including the other camp, and other areas protected by magic. Another Rite of Scry cannot be completed until the vision is returned from a previous scry.

SPELL GUARD OTHER (UNIVERSAL, 4/CHARACTER, USED/DAWN)

Attempts to grant a Spell Guard to each participant in the rites circle. If successful, the caster must mark each card with the appropriate effect and place their caster's mark upon it. When used by the target, they must follow the rules of Spell Guard, to call **Spell Guard**.

TELEPORT OBJECT (UNIVERSAL, PHYSICAL, VAR, VAR)

Attempts to teleport an object from almost anywhere to the Rite Circle. This will not work on objects that are on a creature. A clear understanding should be known about what they are trying to teleport, and the item must be able to be teleported. This cannot be used across the barrier of another faction's camp and is contested by the quality of the item being teleported, or its owner, or the location it is in.
